Mr Joe Schieffelin
Hazardous Waste Facilities Unit Leader
Colorado Department of Health
4300 Cherry Creek Drive South
Denver, Colorado 80222-1530

Gentlemen

Enclosed is the Operable Unit No 6 (OU 6) Draft Final Technical Memorandum No 4, "Chemicals of Concern" for your review This Technical Memorandum identifies chemicals of concern that will be included in the Human Health Risk Assessment to assess potential health risk from assumed exposure to the primary contaminants detected in soil, groundwater, and other media sampled in OU 6

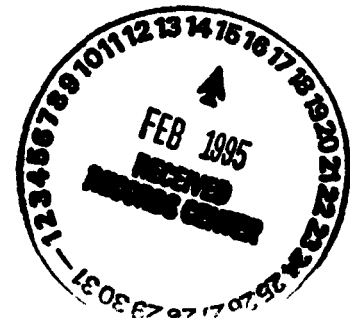

We request your comments by September 15, 1994 so that the document can be revised and a final version submitted for approval without impacting the milestone for submittal of the RCRA Facility Investigation/Remedial Investigation Report If you have any questions, please contact Jen Pepe at 966-2184

Sincerely,

Steve Slaten
IAG Project Coordinator
Environmental Restoration
